From: IT Director

To: Network Management Team

Subject: Traffic Monitoring

Management would like to know how much and what kind of traffic is on our network. We would like to install a product called NTOP implemented on one of the Linux machines. Provide a report that identifies the:

Top 5 Talkers

Characterize the traffic as to TCP, UDP etc... and top 5 destination services (port numbers)

Include a graphic for Network Load Statistics

Thank you.

IT Director
