Subject: Large File Transfer

Jim, in Marketing needs to get the video of Jen's talk to the board meeting. However, the trade show he's at does not allow outbound FTP and the file is too big to email. Please set up Net2FTP on a server so he can send it via the web.

We need the file ASAP. We don't care about the other features of Net2FTP.

Once done, please write up some instructions for Jim so he can get this done.

Thank you.
